Memo. No. 21362 R3-3

Dated 3.7.1952.

FURTHER PAPERS.

Department.	Number.	Series.	Date.

Extract from the proceedings of the Mangalore Municipal council, dated the 26th April 1952.

Resolution No. 627(21) This office bill No. 22/3 bill dated the 18th and 27th March 1952 from Messrs The Oriental Engineering Company for Rs.1958- 1- 3 for the supply of materials and half yearly repairs to P.H. Lorry M D X 929 and office note dated the 16th April 1952 recommending sanction for payment of Rs.308-1-3 as a sum of Rs.1650 has already been sanctioned in Council resolution No. 1534 dated the 13th October 1951 and Council resolution No. 362 dated the 22nd February 52. The council may resolve that Government may be addressed to waive the invitation of tenders in this case for reasons stated in Municipal Health Officer's Note dated the 15th April 1952.

Sanctioned. Government to be addressed to waive the invitation of tenders.

Sir,

Tenders - tenders for repairs and supply of materials to the Public Health Lorry MDX 929 -- Waiver requested.

I submit copy of report dated the 15th April 1952 of the Municipal Health Officer Mangalore, Council's resolution No.627(21) dated the 26th April 1952, 1534/13-10-51 and 362/22-2-52 and request that Government may be pleased to waive the invitation of tenders in respect of the Public Health lorry MDX 929 for reasons stated by the Municipal Health Officer.

It is a fact that when a lorry is taken to one workshop and dismantled there to ascertain the extent of repairs required to be effected and to see what all spare parts are required to be filled or renewed it is not possible for any person to move the dismantled lorry one workshop to another for the above purpose and then as ascertain the cost of materials and repairing or overhauling charges. The Municipality is therefore obliged to give the work of repairs etc to one of the approved workshops and get the work done so that the lorry in question could be taken for half yearly brake inspection. In this case the lorry was taken to the Oriental Engineering Co. Mangalore and for repairs the council sanctioned Rs.300 in its resolution No.1534 dated the 13th October 1951 and in its resolution No.362 dated the 22nd February 52 a further sum of Rs.1350 was sanctioned to meet the estimated cost of materials. The actual bill received from the company that undertook the work being for Rs. 1958-1-3 the council sanctioned payment of a further sum of Rs.308-1-3 in its resolution No. 627(21) dated the 26th April 1952 and resolved to address the Government for waiving invitation of tenders in this case as it was not possible to invite tenders. In the circumstances I request that Government may be pleased to sanction waiver of calling or inviting tenders for the work done.

Ref No.H2M 17333/1951.

Retransmitted to the Commissioner, Mangalore Municipality.

The conservancy lorry M.D.X. 929 was sent to the Oriental Engineering Co.Mangalore for usual half yearly repairs so as to make it fit for brake inspection. This is one of the approved workshops which the council has selected for repairs to P.H.lorries. First the cost of repairs was estimated to be Rs.300/-apart from the cost of spare parts etc.required and sanction of the council was obtained for incurring the expenditure of Rs.300/-vide council resolution No. 1534 dated the 13th October 1951. When the workof repairs was taken up and machinery etc were examined it was found that the cost of repair would exceed Rs.300 (more than the amount sanctioned by the council inas much as the pulling power of the engine was reduced due to service thereby requiring the same to be rebored and fitted up with new rings and oversize pistons and the actual cost of repairs including cost of spare parts came therefore to Rs.1958-1-3.

Under the rules relating to the invitation of tenders, tenders should have been called for for this work as the total cost has exceeded Rs.500/-But this could not be done as it was not known in the beginning before opening the engine what all repairs are required and what all materials and spare parts were necessary for carrying out repairs to MDX 929. The different items of work and materials etc required could be judged only after the engine was opened. When an engine of a lorry is opened in one garrage other workshops do not give their tenders as it is not possible for them to examine the engine whichis parked in other workshop. Hence tenders could not be called for in the beginning.

Under the circumstances stated above the Government may please be addressed in thematter to waive the invitation of tenders in this case.
